The Davvi Hotel, set amongst a snow-clad forest on a secluded hillside

The Rooms

Our hotel rooms are set on two floors in a wing that extends from the main building. The rooms are simply furnished and comfortable. The twin rooms sleep two, plus one additional person on an extra bed. The family rooms sleep up to five, with two single beds, a large sofa bed for up to two children, and an extra camp bed available for a third child. All rooms are en suite, although a few of the bathrooms are very small. Some have been recently refurbished.

The Cabins

At the Davvi Arctic Lodge, we offer cabin accommodation within our grounds. The cabins are simple but cosy and all are en suite, with tea and coffee-making facilities. Most cabins are semi-detached and sleep up to four, with two single beds plus a sofa bed for up to two children in a large open-plan area. There are two, large, detached cabins that can sleep five or six, with two bedrooms each containing two single beds and a sofa bed in the living area that can take one or two children. All cabins are located just yards from the main hotel building, where meals can be taken.

THE FUN STARTS RIGHT ON YOUR
DOORSTEP... THERE'S PLENTY OF
ENJOYMENT TO BE HAD – FOR ALL AGES!

Our beautiful restaurant, with a design inspired by the Sámi kota

The Restaurant

The centrepiece of our hotel is the beautiful restaurant, which provides spectacular panoramic views across the snow-covered hillside towards the Swedish part of Karesuando, just across the nearby border. Many of our guests enjoy exploring these surroundings.

The design of the restaurant is inspired by the Sámi kota, the reindeer-hide tent that has for centuries been the traditional home to the nomadic people of the region. The restaurant is roughly semi circular in shape, with ceiling beams each joining a centre point, as do the supporting poles of a kota. Nearby is the lounge area, again part of a circular structure, with a centre skylight that represents the ventilation hole at the top of a Sámi kota. The lounge is comfortably furnished with sofas, chairs and occasional tables, and is equipped with a large flat-screen television.

MAGICAL WINTER WONDERLAND

Karesuando

Karesuando is a twin village located on both sides of the border between Finland and Sweden with a population of just over 1,000. Situated approx 300km north of the Arctic Circle and located amid majestic, undisturbed and imposing scenery, Karesuando is home to Sweden's most northerly church. The village is set on the edge of a vast wilderness where beauty, nature and wildlife abound. But it is also at the heart of the homeland of the reindeer-herding Sámi people, who traditionally provide the warm hospitality of True Lapland.

Situated on the same latitude as central Greenland and northernmost Canada, Karesuando's climate is nevertheless not as severe, thanks to the Gulf Stream and even in the depths of winter the dry, silent cold feels more comfortable than the intense winds of the south.
